

# Elements of AI

## FREE ONLINE COURSE TO DEMYSTIFY ARTIFICIAL INTELLIGENCE

«Elements of AI» is a series of **free online courses** created by the University of Helsinki and the MinnaLearn institute. Together with the Luxembourg government partners, we want to encourage as broad a group of people as possible to learn what AI is, what can (and can't) be done with AI, and how to start creating AI application methods.

This **30-hours course** combines theory with more than **25 practical exercises** and can be **completed at your own pace**.

All the graduates will receive a **certificate** for completing the course.

### For whom?

For everybody. The course is aimed at curious people who are motivated to learn about how the world works. Age, profession or country doesn't matter. No particular skills are required.

### Objectives?

- Understand some of the major implications of AI
- Think critically about AI news and claims
- Define and discuss what AI is
- Explain the methods that make AI possible

Enroll now and get free access to weekly chapters of empowering knowledge, including tailor-made webinars with Luxembourgish experts and a helping hand in study workshops related to the course starting April 2024.
